

Editorial Policy

The Sustainability site provides reports on the Nippon Kayaku Group's environmental, social and governance initiatives and achievements toward achieving a sustainable society, aiming to help our stakeholders gain a better understanding of the Group's activities.

The Nippon Kayaku Group's basic sustainable management policy is to "under its corporate vision, the **KAYAKU spirit**, the Nippon Kayaku Group will practice sustainable management that responds to the trust placed in it by all of its stakeholders, by ensuring transparency and fairness in management and contributing to the creation of a sustainable environment and society through its business activities."

The information contained herein is organized in line with the key sustainability issues ("Materiality") formulated in FY2022. Topics have been chosen in view of both their importance to society with reference to various guidelines (GRI standards, ISO 26000, etc.) and their importance to the Nippon Kayaku Group.

*Note: The information in this report includes not only past and current data but also future plans and expectations as of the time of the report's issuance. These include assumptions and judgements based on information available at the time of writing the report. Future activities and performance may differ from the descriptions presented in this report.
